SURTECO DECOR

TECOLINE is an endless single-layer edgbanding from Bausch Linnemann with a surface finish, supplied in rolls. Made from nonfading, specially-formulated papers, they can be perfectly matched, where required, to the TECOFOIL surface foils in solid colours or printed with woodgrain or fancy designs and impregnated with duroplastic resins.

Selected, environmental-friendly lacquering systems are available for the surface, as well as a variety of mechanical or chemical embossing options. The designs also include solutions to match genuine wood veneers and other surface systems.

If the colour you require is not listed we have thousands of matches ex stock. All available Glued and unGlued. For further inquires please contact our Sales Team:

Phone 01 460 0064 or email: info@naa.ie

Melamine Edging
